Re: IMSA WeatherTech Championship Testing Limitations

One Daytona Blvd.
Daytona Beach, FL 32114
P: +1 (386) 310-6500

Due to unprecedented events, for IMSA series where testing is governed by their respective Sporting Regulations, all IWSC Entrants are prohibited from conducting private testing until further notice. This includes but is not limited to: on-track testing, wind tunnel (full and scale models), climatic tunnels, straight line, 7 / 8 post rigs, kinematics & compliance rigs (static and dynamic), Manufacturer or Constructor driver simulators, etc.

All Testing requiring IMSA approval is prohibited until further notice.

When appropriate, IMSA will work with teams and manufacturers to re-implement testing permissions.

We thank you for your understanding at this challenging time.
