IMSA TECHNICAL BULLETIN IWSC #21-01

To: All IMSA WeatherTech Sportscar Championship Participants
From: IMSA Competition
Date: November 20, 2020
Re: IWSC 2021 Technical Regulations

Today IMSA is publishing the 2021 Blackline and Redline Technical Regulations for the IMSA WeatherTech SportsCar Championship for the classes as indicated.

Following today's date, changes to the IMSA WeatherTech SportsCar Championship Technical Regulations will be issued via Technical Bulletin.

Note: These Technical Regulations grant specific permissions for modification, change, or adjustment of the Specification of the Car. **Unless specifically defined as permitted, any modification, change, or adjustment is inherently prohibited.** This philosophy is clearly defined in Article 4 and specific modifications are defined in Article 9.

DPI:

[*DPI 2021 Technical Regulations REDLINE*](#)

[*DPI 2021 Technical Regulations BLACKLINE*](#)

LMP2:

Starting with the 2021 season the LMP2 Gibson engine package is updated to a new specification to include updated ECU software and a new specification homologated exhaust system must be used. IMSA specific gearing and engine speed restrictions used in 2020 do not carry forward to 2021 and only the homologated gear sets will apply.

[*LMP2 2021 Technical Regulations BLACKLINE*](#)

LMP3:

With the introduction of LMP3 to the IWSC, 2020 or newer homologated cars are eligible for competition with either the VK56 or VK50+ engine packages. These LMP3 Technical regulations are structured to fully respect the ACO LMP3 homologations and the cost controlled nature of the category. **Only limited variances are permitted as indicated.**

Permitted Daytona specific adaptations are detailed in Technical Bulletin 21-02.
