

January 27, 2021  
 MMC-IMSA-2021-03

**MICHELIN MOTORSPORT CONTINGENCY POSTING**  
**“MICHELIN MID-WAY FRONT RUNNER”**

Michelin Motorsport will continue to offer product contingency to the following classes in 2021:

- GTD
- LMP3 (IWSC)
- LMP3 (IPC)

For the listed classes, during each race, the car leading the class at the halfway mark of the race will be identified as the Michelin Mid-way Front Runner. The result will be determined by IMSA Timing and Scoring, utilizing the following eligibility:

- Awarded based on the standings in each class at the halfway point of each designated race time
- Awarded based on the standings of the next completed lap of the overall Race leader followed by all subsequent Cars after the designated time interval

The award for the Michelin Mid-way Front Runner will be one set of MICHELIN Competition tires, to be awarded for each class at each round identified in the table below.

After receiving the validated result from IMSA, Jackson Motorsports Group (Michelin’s exclusive tire sales and service provider for IMSA competition) will credit the set of tires on that race weekend’s invoice.
