Michelin Motorsport Communication

2022 Tire Pricing

Michelin Motorsport North America would once again like to thank all the teams and IMSA for the partnership during the 2021 season. It remains our pleasure to work with all the teams in the IMSA WeatherTech Sportscar Championship (IWSC), IMSA Michelin Pilot Challenge (IMPC) and IMSA Prototype Challenge (IPC) series.

The 2021 season has brought challenges to teams and manufacturers and technical partners like Michelin. As communicated earlier, due to increased raw material and production costs that has sustained itself for more than 14 months, Michelin implemented a two-step price increase on motorsports tire lines used in IMSA competition.

On September 1st, there was a 3 percent increase on these products and at that time we announced an additional 3.5 percent increase beginning January 1, 2022.

The Michelin race tire prices effective Jan 1 are:

		Slick	Wet
GTD, GS, TCR, LMP3	27/65R18	\$ 489	\$ 489
	30/65R18	\$ 615	\$ 615
	30/68R18	\$ 631	\$ 631
	33/68R18	\$ 643	N/A
	31/71R18	\$ 643	\$ 643
DPi, LMP2	30/68R18	\$ 686	\$ 631
	31/71R18	\$ 708	\$ 643

Michelin remains committed to helping the racing community and IMSA continue to grow and support the paddock with consistent levels of service.

The Michelin Motorsport North America team looks forward to working with you in 2022.
