IMSA is implementing an update to fuel data distribution utilized in the IMSA WeatherTech SportsCar Championship (IWSC) effective immediately. The NASCAR ShareFile system will no longer be used and will be replaced by a NASCAR SharePoint folder assigned to each Car by Class and Number.

To assist IMSA in this transition, prior to load-in for the Car's first applicable Event, please submit email address(es) which require access to the refueling data folder and it will be shared following the first fuel fill from the pit-lane-network-connected Autonomous Pit Tank at the next Event for the Car.

Please submit up to 3 email addresses as well as the Class and Car Number to:
