

IMPC #24-02

To: All IMSA Michelin Pilot Challenge Participants

From: IMSA Competition

Date: January 3

Re: ROAR and Rolex 24 Event Driver Helmet Inspections

Per the 2024 IMSA Sporting Regulations Article 21.2, All Driver helmets must be inspected by IMSA prior to first use in the season. Helmets must display the required IMSA inspection sticker. The 2024 Helmet sticker indicates the helmet is compliant with the FIA 8860 standard and is equipped with the Eject System or Stand 21 "Lid Lifter" system. The helmet inspection does not address the safety condition of the helmet.

Helmet inspection locations are identified in the Blue Garages near the Pilot Challenge scrutineering garage and in the Yellow Garages near the WeatherTech Championship scrutineering location.

See table below for dates and times.

ROAR Before the 24

	<u>Blue Garages</u>	<u>Yellow Garages</u>
Friday (1/19)	4:00 pm – 5:00 pm	8:00 am – 9:30 am
Saturday (1/20)	3:00 pm – 4:00 pm	8:00 am – 9:00 am

Rolex 24 At DAYTONA

	<u>Blue Garages</u>	<u>Yellow Garages</u>
Wednesday (1/24)	11:00 am – 12:30 pm	2:00 pm – 3:30 pm
Thursday (1/25)	10:00 am – 11:30 noon	8:00 am – 9:00 am

If a Driver is unable to meet the above scheduled times due to travel, IMSA Officials will be available to provide helmet inspections on a case-by-case basis. It is the responsibility of the Team to set up a time and location for helmet inspection if the above times cannot be met. Appointments must be made at one of the inspection locations during operating hours.

All other protective equipment used by a Driver or a Team remains the responsibility of the Entrant and may be spot checked at any time during IMSA Events.
