***MICHELIN MOTORSPORT CONTINGENCY POSTING***  
***“MICHELIN PILOT CHALLENGE MOMENT OF THE RACE”***

Michelin Motorsport will continue its contingency program exclusively for the MICHELIN Pilot Challenge competitors, in partnership with IMSA Radio, in 2024 with one winner from each of the following classes:

- GS
- TCR

For the listed classes, during each race, one driver/team from each GS and TCR class will be designated as winners of the “Michelin Moment of the Race” as selected by the IMSA Radio team.

The result will be determined by IMSA Radio talent and announced at the conclusion of the race. The criteria for the award will be based on the judgement IMSA Radio partners to recognize the driver and team produced a moment that had significant impact on the race and their race finish.

Considerations will be made for:

- On-track race move that impacted the overall finishing position for the team
- Off-track strategy (tires, fuel, driver change, etc.) that positively impacted team finish

The winner of the Moment of the Race designation will not necessarily be the overall race winner.

The award for the Michelin Pilot Challenge Moment of the Race will be one set of MICHELIN Competition tires, to be awarded for each class at each round.

After receiving the validated result from IMSA, Jackson Motorsports Group (Michelin’s exclusive tire sales and service provider for IMSA competition) will credit the set of tires on that race weekend’s invoice.
