 Re: IWSC Voluntary Technical Inspection - MERG Reservation System

One Daytona Blvd.
 Daytona Beach, FL 32114
 P: +1 (386) 310-6500

IMSA is implementing an IWSC Voluntary Technical Inspection Reservation System effective immediately.

The Voluntary Technical Inspection Reservation System is processed through MERG. The system will activate twenty-four (24) hours prior to the first occasion of Voluntary Technical Inspection opening times listed in the Official Schedule.

Entrants may review and select a voluntary technical inspection time slot as identified in the official schedule through the IMSA MERG system as shown in the examples below.

The MERG reservation time slots are for voluntary technical inspection only. These available time slots will follow all mandatory safety and technical inspections per the official schedule for each event. Availability is limited and may not be sufficient for all entered Cars.

One Daytona Blvd.
Daytona Beach, FL 32114
P: +1 (386) 310-6500

Reservation time slot allocation shall be 15 minutes for GTP and LMP2 entrants and 10 minutes for GTD PRO and GTD entrants.

Entrant is permitted to schedule a maximum of 1 visit per day for each entered Car. All aspects of IWSC S.R. 24.9.2. remain in effect. Once a reservation time has been selected in MERG, it will automatically count towards the permitted three visits for the event irrespective of whether the car presents or not.

If an entrant is unable to attend their scheduled time slot, they must log in to MERG and cancel so that other entrants might be able to use that time slot.

It is required that each entrant arrive to IWSC inspection area 30 minutes prior to their inspection start time to maintain efficient use of schedule.

Once Voluntary Technical Inspection Reservations are completed per the Official Schedule, remaining IWSC voluntary tech hours are open for all entrants and do not require a reservation.
