Re: Enhanced IDI Service Offering

IMSA is proud to offer the following enhancements to its IMSA Dedicated Internet (IDI) service offering in the IMSA WeatherTech SportsCar Championship Paddock and Pit Lane.

In conjunction with our official partner, RingSquared, IMSA now offers Virtual Local Area Network (VLAN) service. This technology enables IWSC Teams to communicate between their Pit Carts and Paddock Transporters over a wired connection; thus, eliminating the need for Wireless Point-to-Point devices and the multitude of challenges associated with deploying Point-to-Point technology.

The new offering is available starting with the Acura Grand Prix of Long Beach\* and continuing at events where IDI service is offered.

Updated pricing for IMSA's IDI services are listed below. To order IDI, and the new VLAN service, please visit <https://merg.imsa.com> and select Services -> Internet.

Offering	Details	Price per Event
IDI Single Event Paddock	<ul style="list-style-type: none"><li>• IDI service to 1 car's transporter in the IWSC paddock.</li></ul>	\$2,160
IDI Single Event Pit Lane	<ul style="list-style-type: none"><li>• IDI service to 1 car's transporter in the IWSC Pit Lane.</li></ul>	\$2,160
IDI Single Event Pit Lane & Paddock	<ul style="list-style-type: none"><li>• IDI service to 1 car's transporter</li><li>• IDI service to 1 car's Pit Cart</li></ul>	\$4,320
IDI Single Event Pit Lane & Paddock with Managed VLAN	<ul style="list-style-type: none"><li>• IDI service to 1 car's transporter</li><li>• IDI service to 1 car's Pit Cart,</li><li>• Managed VLAN between the two connections.</li></ul>	\$8,500

\*NOTE: IMSA will offer VLAN services at Long Beach, but due to provider restrictions cannot offer internet services in the Paddock.
