Re: Mazda MX-5 Cup Technical Regulations Updates

---

The following corrections, additions (where shown in red) or deletions are made to the 2024 IMSA Technical Regulations for the Whelen Mazda MX-5 Cup Presented By Michelin and are effective immediately.

3.2.11. Fuel - A fuel sample may be taken from any Car prior to and/or after any Official Session. ~~Fuel must not be added to the Car during any Official Session.~~  
[Refer to Sporting Regulations for refueling requirements.]

3.4.7. Minimum Ride Height - As measured on Dry tires ~~without~~ with Driver and ballast and from the aft front tire to the fore of the rear tires - 4 inches/102mm. As measured on Wet tires with Driver and ballast and from the aft front tire to the fore of the rear tires - 3.875 inches/99mm.

3.12.11.b. A label with the transponder number must be clearly displayed on ~~the top of~~ the Driver's side door between the side mirror and top of the door, ~~or on the driver's side rollcage.~~

3.13.5.a. The only approved fuel is Sunoco 260 GT VP-MS100. Fuel must be stored and used at ambient temperature and additives must not be used. Fuel is subject to testing at any time.

The 2024 IMSA Technical Regulations for the Whelen Mazda MX-5 Cup Presented By Michelin shall be updated with the information herein and reissued as of May 8, 2024.
