## Storylines

### THE WHOLE GANG'S BACK TOGETHER

The four classes of the WeatherTech Championship – GTP, LMP2, GTD PRO and GTD – will race together for the first time since the Mobil 1 Twelve Hours of Sebring Presented by Cadillac more than three months ago.

### PARITY RULES IN GTP CLASS

The top prototype class, GTP, has seen a different winner in each of the first five races this season. The No. 7 Porsche Penske Motorsport Porsche 963, winner of the season-opening Rolex 24 At Daytona, leads the class standings but has four pursuers all within 139 points heading to Watkins Glen.

### MICHELIN ENDURANCE CUP RESUMES

The Sahlen's Six Hours marks the third of five events making up the IMSA Michelin Endurance Cup, where drivers and teams rack up points separate from the season championship at designated junctures of each endurance race. Points at Watkins Glen (five for being in first place in class, four points for second place, three points for third and two points for all others) will be awarded at the halfway mark and conclusion of the six-hour race. The competition in the Michelin Endurance Cup is extremely close across the board, with no class leader up by more than two points.

### CROWDSTRIKE ENDURANCE, TEAMWORK AND SPEED AWARD

This rewards the team that posts the quickest combined times of their best qualifying lap and fastest race lap for each driver. The winning team from Detroit earlier this month, the No. 7 Porsche Penske Motorsport Porsche 963, will be recognized in prerace ceremonies at Watkins Glen.

### WHO'S HOT?

**No. 77 AO Racing Porsche 911 GT3 R:** "Rexy" has been roaring of late. The car with the dinosaur-themed livery has won the last two GTD PRO races, allowing the team and co-drivers Laurin Heinrich and Seb Priaux to take an 84-point lead in the standings over the reigning class champions, Ben Barnicoat, Jack Hawksworth and the No. 14 Vasser Sullivan Lexus RC F GT3.

**No. 57 Winward Racing Mercedes-AMG GT3:** Meanwhile, in the GTD class, Russell Ward, Philip Ellis and the No. 57 Mercedes have won three times in the first four races to build a commanding 213-point lead in the class.

**No. 18 Era Motorsport ORECA LMP2 07:** Though it's been a while since they raced in March, the Era team is unbeaten in 2024 with wins in the Rolex 24 At Daytona and Twelve Hours of Sebring. Co-drivers Dwight Merriman, Ryan Dalziel and Connor Zilisch look to go 3-for-3 at The Glen.

### WHO'S GOOD HERE?

**Riley, Riley, Riley:** The veteran team has won each of the last three years at the Sahlen's Six Hours but those came in the Le Mans Prototype 3 (LMP3) class that is no longer part of the WeatherTech Championship. Riley and co-drivers Felipe Fraga and Gar Robinson will chase a fourth straight win in the race in the LMP2 class, while the third driver of the No. 74 Ligier JS P320, Josh Burdon, goes for his second straight victory.

**Vasser Sullivan:** Last year, the team swept victories in the GT classes, with Ben Barnicoat and Jack Hawksworth wheeling the No. 14 Lexus to the GTD PRO win while Frankie Montecalvo, Aaron Telitz and Parker Thompson copped the GTD win in the No. 12 Lexus. The identical lineups are back in search of a repeat.

## Risks

GTP cars feature electrical systems operating at 800 V  
These voltages can create life threatening electric shocks

## Indicators

At all times, when the car is in the paddock/on track, the lights will be functional and must be obeyed

*Blue Light Indicates Medical*

*On first switch on, the red light will illuminate for 2 sec to show the light is working. This does not indicate a fault.*

*"Green Light" indicates a safe race car.*

*If any other combination of light is lit or NO light, consider the race car "unsafe"*

HV Safety Light Status	INDICATION	DESCRIPTION	SITUATION
GREEN		High Voltage System OK	CAR SAFE
FLASHING RED		High Voltage potentially present on the surface of the car	UNSAFE TO TOUCH
OFF		High Voltage System Status Unknown	UNSAFE TO TOUCH

## CAR UNSAFE PROTOCOLS

1. Do not touch car
2. Alert people in vicinity of the danger (shout) to stay away
3. Ask for HV emergency to be communicated to HV Safety Officers (identified by armbands)
4. Establish cordon or safe zone around the car (verbal or physical)

## HVSA (Quarantine) and HVI (HV Isolation)

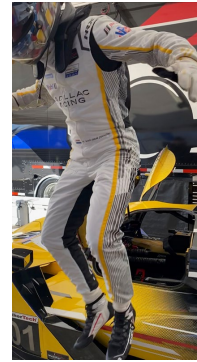

- HVSA will be an area that is accessible to vehicles from both racetrack/paddock and close to the pit lane.
- HVI is an area for cars that have terminal issues (including fire/thermal runaway) and is away from the public.
- Should a car become **UNSAFE** at any time on track, the IMSA Manager (Track Services) will lead recovery to one of these areas.
- Should a car become **UNSAFE** at any time in pitlane, the IMSA HV Safety officer will be notified and lead recovery to the HVSA.
- Should a car become **UNSAFE** at any time in the paddock or team area, move people away, establish a cordon and notify IMSA/OEM/Team HV Safety Officer (Armband wearer)
- Cars will not be released from HVSA until given permission by the IMSA HV Safety Officer.

## Driver exit

In case of need to exit a car in an UNSAFE condition:

- Do not touch ground and Car at the same time
- No assistance to be given
- Exit via door onto sidepod
- Stand on sidepod
- Jump away from Car and onto ground with one clear motion
- Do not touch Car

Should this not be possible, track services will lead extrication.

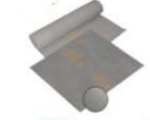

## HV Safety Equipment (PPE)

At all times, when the car is in the paddock/on-track, the following equipment will be in the near vicinity of the car:

Gloves

Rubber Matting

Signage

Rescue Hook

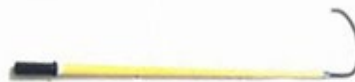

Barriers

## USE OF HV RESCUE HOOK

When a person is receiving an electric shock (e.g. they are touching an UNSAFE HV car that has become live, they may be unable to release contact due to muscle contraction).

In this case, DO NOT TOUCH THEM DIRECTLY. Use the rescue hook to pull them off the car.
