The following corrections, additions (where shown in red) or deletions are made to the 2023 IMSA Sporting Regulations & Series Supplementary Regulations for the IMSA Michelin Challenge and are effective immediately.

33.3.4. Team members with their equipment are only permitted over the hot side of the pit wall once their Car is stopped in their Pit Box (wheel stop, Car stationary). Equipment or tools must not be rested on the pit wall. Sitting or standing on the pit wall is prohibited. **During and following the pit stop, all equipment must remain under a Crew member's control. Unattended equipment in the Pit Box (including tires) is prohibited.** At the conclusion of the pit stop, **all equipment or material, (including tires) must be immediately returned to the pit wall.** All personnel must promptly return to the cold side behind the pit wall except to clean up spills and tools. **Equipment or material must not remain in the Pit Box.** Penalty: Drive Through.

33.3.5. Cars must be stopped or placed properly in their own Pit Box, typically parallel to the pit wall, and not interfere with other Cars properly in their own Pit Box in the sole judgment of IMSA Officials. Positioning a Car, equipment, **tires**, and/or personnel so as to interfere with another Competitor properly within their Pit Box, pit area and/or designated space is prohibited. **Penalty: Drive Through.**

33.3.6. It is prohibited to place objects **or tires (attended or otherwise)** which, in the sole opinion of the IMSA Officials, unfairly hinder the entry or exit of other Cars into their Pit Boxes. **Penalty: Drive Through.**

37.4.4. (SSR) It is prohibited to **top-up transfer fuel into or from the autonomous tank-until the refueling rig inspection is concluded** during any Open Grid/Fan Walk or any time the Car is in the Pit Box.

The 2024 IMSA Sporting Regulations and Series Supplementary Regulations for the IMSA Michelin Challenge shall be updated with the information herein and reissued as of July 3, 2024.
