Re: FIA Driver Categorisation Reminder

---

As a reminder, for any driver holding a FIA Driver rating, or participating in any IMSA series that requires a Driver to hold a FIA driver rating, any applications to the FIA regarding driver ratings for 2025 are due no later than Saturday, August 31, 2024 on the FIA Driver Categorisation portal, starting at: <https://www.fia.com/fia-driver-categorisation>

IMSA recommends reading and familiarizing yourself with the actual content of the FIA Driver Categorisation regulations before directing any additional questions to IMSA via Paul Walter, Senior Director, Racing Operations, [pwalter@imsa.com](mailto:pwalter@imsa.com).

A copy of the regulations, highlighting the updated sections, is available on the FIA platform here: [https://www.fia.com/sites/default/files/driver\\_categorisation\\_regulations\\_2024\\_december\\_wmsc.pdf](https://www.fia.com/sites/default/files/driver_categorisation_regulations_2024_december_wmsc.pdf)

The 10-member FIA Categorisation Committee meets in late September to consider driver applications, as well as annual driver performance reviews, and publishes a provisional list of 2024 ratings by mid-September. The definitive 2024 list is expected November 1<sup>st</sup>, excepting any unfinished championships.
