 Re: IWSC Voluntary Technical Inspection - MERG Reservation System

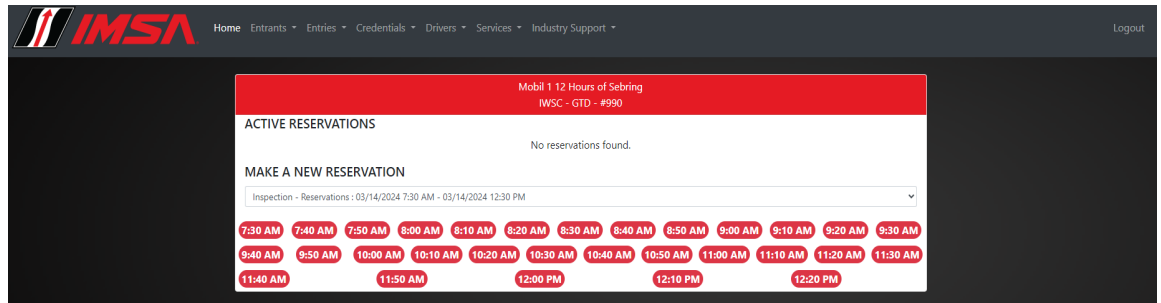

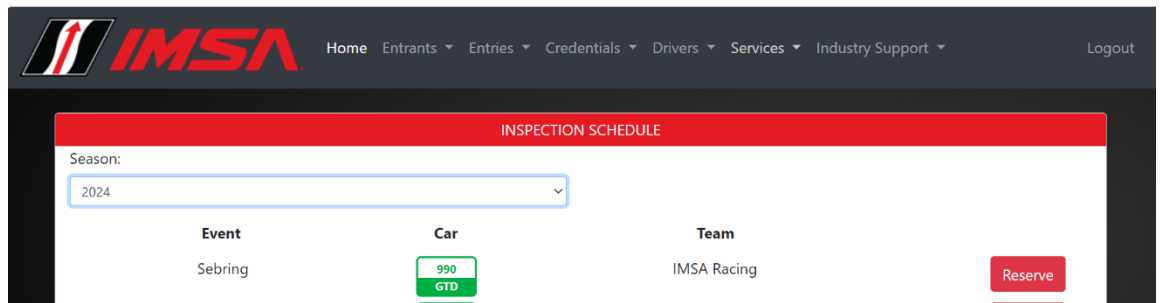

One Daytona Blvd.
 Daytona Beach, FL 32114
 P: +1 (386) 310-6500

IMSA is implementing an IWSC Voluntary Technical Inspection Reservation System effective immediately.

The Voluntary Technical Inspection Reservation System is processed through MERG. The system will activate on each Monday prior to an Event at 11:00 am Eastern Time. **Teams must submit their completed Scrutineering Declaration in MERG for access to make a Reservation. An error message will appear when attempting to make a reservation if the Scrutineering Declaration has not been submitted.**

Entrants may review and select 1 voluntary technical inspection time slot during the Event for “By Reservation” Voluntary Inspections as identified in the official schedule through the IMSA MERG system as shown in the examples below.

The MERG reservation time slots are for “By Reservation” voluntary technical inspection only. These available time slots will follow all mandatory safety and technical inspections per the official schedule for each event. Availability is limited and may not be sufficient for all entered Cars.

One Daytona Blvd.
Daytona Beach, FL 32114
P: +1 (386) 310-6500

Reservation time slot allocation shall be 15 minutes for GTP and LMP2 entrants and 10 minutes for GTD PRO and GTD entrants.

Entrant is permitted to reserve a maximum of 1 visit per Event for each entered Car. All aspects of IWSC S.R. 24.9.2. remain in effect. Once a reservation time has been selected in MERG, it will automatically count towards the permitted three visits for the event irrespective of whether the car presents or not.

If an entrant is unable to attend their scheduled time slot, they must log in to MERG and cancel so that other entrants might be able to use that time slot.

It is required that each entrant arrive to IWSC inspection area at or prior to their inspection start time to maintain efficient use of schedule. Late arrival will result in forfeiture of the appointment.

Once the Voluntary Technical Inspection Reservation Period(s) are completed per the Official Schedule, remaining IWSC voluntary tech hours are open for all entrants and do not require a reservation.
