LMP2 Class:

IMSA is implementing updates to the required Series Electronics utilized in the IMSA WeatherTech SportsCar Championship (IWSC) effective for the IMSA Sanctioned Test at Daytona in November of 2024. This memo will serve as a guide to the updates in the LMP2 Class for 2025. The 2025 Technical Regulations by Class will serve as the official requirements. Ordering information will soon be available on the 2025 Electronics Ordering Link on the [Team Portal](#).

Accident Data Recorder:

For 2025 IMSA will replace the Impact Data Recorder (IDR) with the MoTeC Accident Data Recorder (ADR) the ADR provides more accurate information in the event of an incident. This requires an updated loom from Creative Motorsports Solutions (CMS). ADR must have IMSA certification sticker and must be installed per the manufacturer electronics declaration.
