

IWSC TECHNICAL BULLETIN #25-03

To: All IMSA WeatherTech SportsCar Championship Participants
From: IMSA Competition
Date: October 25, 2024
Re: Spin Test Submission Update: GTP, GTD-PRO, GTD

One Daytona Blvd.
Daytona Beach, FL 32114
P: +1 (386) 310-6500

IMSA is implementing an update to the Spin Test Data submission process for the IMSA WeatherTech SportsCar Championship (IWSC) effective immediately. The NASCAR SharePoint will be utilized for data submission. A folder will be assigned to each Car by Class and Car Number by IMSA.

Each Car folder will have the required folder structure in place for all the events and sessions for 2025. Do not edit these in any way as this can lead to your Spin Test data being late and subsequent penalty(s) applied. Only the .bmsbin file is required to be uploaded to the folder. Files must not be zipped.

Filename template must match this structure:

[car]_[cardinfo]_[RecDateYear][RecDateMon][RecDateDay]_[RecStart]_Out[outing03]

For the 2025 Season, please submit the email address(es) which require access to the Spin Test data folder to the contact below. The SharePoint Folder will be shared with the email addresses provided.

Please submit up to 3 email addresses as well as the associated Class and Car Number to:

IMSAEngineering@imsa.com
