IMSA is implementing an update to refueling data distribution utilized in the IMSA WeatherTech SportsCar Championship (IWSC) effective immediately. The NASCAR SharePoint folder assigned to each Car by Class and Car Number will be cleared from the previous Season on December 1st 2025.

For the 2026 Season, please submit the email address(es) which require access to the refueling data folder to the contact below. The SharePoint Folder will be shared with the email addresses provided. Fills will automatically populate the folder shortly following a fill from the Autonomous Pit Tank.

Please submit up to 3 email addresses as well as the associated Class and Car Number to:
