## IWSC TECHNICAL BULLETIN #26-10

To: All IMSA WeatherTech SportsCar Championship Participants  
From: IMSA Competition  
Date: December 12, 2025  
Re: IMSA Rolex 24 – GTP & GTD PRO Extended Post Race Technical Inspection –  
Schedule & Required Equipment

---

**Sunday, January 25, 2026** - Following the conclusion of the Race the top four (4) GTP and top four (4) GTD-PRO Cars will be impounded overnight by IMSA in a controlled location

**Monday, January 26, 2026** - Comprehensive vehicle inspection will begin at 8:00 AM EST. Cars that have passed inspections will be released by 3:00 PM EST on Monday.

### Equipment to be supplied by Entrants and/or Manufacturers

**GTP** - aerodynamic deflection fixtures as defined in the corresponding Technical Regulations and as used during the wind tunnel testing process. In addition, Entrants must have available A-frame-style corner/hub stands, which will be used for full vehicle scanning without deflection loads.

**GTD-PRO** - high stands and necessary equipment to facilitate floor removal.

Failure to provide the equipment specified above may be considered Technical Non-Compliance (see SSR 22.7).
