Michelin Motorsport Communication

2027 Tire Price

Michelin continues to innovate and bring proven race tire solutions to the IMSA paddock once again in 2027. We would like to thank our partner teams for your support and collaboration.

As we close out 2026, the tire industry, similar to many manufacturing businesses, continues to see the impacts of raw material and production cost increases. Additionally, with Michelin motorsports products produced in France, the imposed tariffs on these products remains in effect.

These economic pressures have impacted our business at Michelin across the portfolio, but we remain sensitive to working with IMSA customers to help control team costs.

In 2027, Michelin will implement a price increase across its portfolio of motorsports product of 4% effective January 1, 2027 on the tire lines specified below and used in the IMSA WeatherTech Sportscar Championship (IWSC), IMSA Michelin Pilot Challenge (IMPC) and IMSA VP Racing SportsCar Challenge.

Additionally, the surcharge for tariffs put in place in 2025 will remain in effect for all Michelin motorsports tires sold during race weekends and purchased through Jackson Motorsports. Once again, sales will be limited to race weekend allocations. Note that these prices are exclusive to the IMSA partnership within race events. The open market price, to support testing events, will be different.

The Michelin race tire prices effective Jan 1 are:

Class	Tire Size	Tire Line	Original 2027 Price Per Tire	Surcharge	Total, with surcharge applied
